

We know **Vacant Property Security, Property Services** and **Temporary CCTV** better than anyone

High security steel security doors; keyless & key operated

Full range of property services from cleaning to clearance to pest control

Temporary CCTV solutions for commercial & residential properties

Property Security

Steel Security Doors

Replacing existing doors to prevent illegal entry whilst allowing access for authorised personnel.

Monitored Alarms

Our unique, stand-alone alarm system works independently of power or telephone lines.

Temporary CCTV

Fully power-independent, our systems are able to monitor and record all events and activations 24/7.

Property Inspections

Site inspections are used to identify and report all potential risks likely to arise with a vacant building.

Steel Security Screens

High security perforated, heavyweight steel screens are designed to cover existing windows and openings.

Concrete Barriers

Weighing around 5000lbs each, these solid blocks are highly effective at preventing vehicular access.

Heras Fencing

Lightweight, secure, galvanised steel, weather-resistant panels ideal for temporary fencing.

Manned Guarding

Individual or multiple SIA licensed security guards operating 24/7 with or without dogs.

Property Services

Property Clearance

All types of unwanted household and commercial items cleared both internally and externally.

Extreme Cleaning

Includes clearing and cleaning of sewage overflows, bird fouling, blood and graffiti.

Pest control

BPCA accredited. Professional, discreet and efficient pest control service.

Biohazards

Safe and effective removal of biological, hazardous material that may pose a threat to health or life.

Rubbish & Waste

Safe and efficient removal of household and commercial waste for sorting and disposal.

Sharps disposal

We provide a fully licensed sharps and clinical waste collection and removal service.

Invasive plants

Qualified & trained in the treatment and removal of invasive plants such as Japanese Knotweed.

Undiscovered deaths

Police approved cleaning, decontamination and restoration of property following undiscovered death.

Temporary CCTV solutions

inView CCTV Tower

Our high-spec CCTV towers can be deployed to most environments, whether or not mains power or internet access are available.

The tower unit provides independent multi-point alarm coverage of large areas and is viewable and controllable remotely.

inView Mobile CCTV unit

Our unique, rapid deployment, highly visible mobile CCTV unit can be operational within minutes of arrival on-site.

The mobile unit is equipped with multiple fixed cameras, plus a high resolution pan-tilt-zoom camera with night vision capability atop a 6m mast.

With on-board power and wireless communications the unit is totally self-sufficient.

Ideal for use in harsh or unmanned environments to protect empty buildings or construction sites where no mains power is available and the risk of theft, vandalism or illegal occupation is high.

inView Video Verified

Wireless and power-independent, interior and exterior video alarm system with day and night visibility cameras, providing 24-hour security.

When activated, the system sends a video clip to an alarm operator who will verify if a response is needed.

Monitoring & Response

Our CCTV monitoring service is NSI Gold Approved and can provide 24/7 coverage of alarms and CCTV services.

Our fast-response security teams provide same-day nationwide cover following confirmed alarm activations.

Key to the success of providing excellent customer service is our 150+ years combined industry experience plus our comprehensive product and service knowledge.

Our teams are courteous and respectful and are trained to deliver our full range of services quickly and efficiently.

Clearway's Operations team is available from 8am – 6pm, 5 days a week
We also provide an out-of-hours emergency call service.
